

**The Willows at Boxford**  
**Architectural Elevations and Material List**

**February 1<sup>st</sup>, 2021**

Attached submittal is for the following five home designs to be included in the community: **Hopkinton, Dover, Kennebunk, Needham, Norwell**

The Willows at Boxford will offer five different home designs each with a unique elevation as shown. Each of these five home designs will fit within the house boxes shown on the site plans. All home designs are available in both left and right hand layouts (reversible). All home designs can be combined (interchangeable) in a duplex building including a combination of the same design.

The layout of home designs throughout the community will be dependent on the individual home buyer's selection of a specific site location and home design. There will be two color schemes in the community with each building alternating between the Colonial White and Sterling Gray color schemes.

Also provided are the renderings and elevations of The Willows at Boxford Clubhouse which will utilize the same exterior materials.

**Material List and colors:**
