

Project No. BOXF-0074

February 28, 2020

Ross Povenmire, Director
Conservation Commission
Town of Boxford
7A Spofford Road
Boxford, MA 01921

Subject: 41 Kelsey Road Stormwater Permit Application
ADVA Construction, Tim McManus, Owner/Applicant

Dear Ross,

On behalf of the Applicant, please consider this letter our written application for a Stormwater Permit regarding the existing and proposed alteration at 41 Kelsey Road pursuant to the requirements set forth in Chapter 160, Stormwater Management of the Boxford Code.

We are including five (5) full sets of the complete package for the Commission as well as one (1) for the Superintendent of Public Works as required in Chapter 295, Stormwater Management Regulations of the Boxford Code. We are also emailing the complete application package to you for you to distribute electronically to your members.

The total amount of alteration on the site shown on the accompanying Stormwater Pollution Prevention Plan (SWPPP) equals approximately 1.2 acres. Based on the \$200.00 per quarter acre of proposed alteration, the permit filing fee will be $[(1.2/0.25) (200)] = \$960.00$ according to Chapter 295.

Please feel free to contact me directly if you have any questions on any of the information presented above.

Very truly yours,

Peter M. Blaisdell, Jr., P.E., P.L.S.,
Project Manager

Cc: Tim McManus
