The Summary Letter Includes:

- As-Built Photographs 1-10

On December 12, 2018 we conducted a site walk to confirm the as-built conditions for the new:

- Stream Crossing – Bridge
- New Roadway and Dry Hydrant Access
- Dry Hydrant
- Site Drainage
- Inlet and Outlet Channel

The project conforms with the original design drawings Dated August 4, 2015 – Revision #1 prepared by ASB design group llc and has been completed in accordance with the Order of Conditions 114-1210.

As shown on the original design drawings the proposed roadway was to be paved. Photograph 7 shows that the roadway is gravel. We do not see any issues with a gravel roadway.
