

Project Description - 32 Lawrence Road, Boxford

Owner/Applicant: Gwendolen & Charles Perkins

NHESP 19-38608

The proposed project involves the replacement of a failing septic system (no increase in existing design flow). The proposed project will include the installation of a new septic tank, distribution box, leach field and associated grading. Portions of the existing deck on the side of the dwelling will need to be removed to allow the proposed work and then re-built after the work is complete.
